Class Policies for Preschool Music Fundamentals

Class Description: Preschool Music Fundamentals is a general music class for preschool children. Students participate in a variety of music activities including singing, playing instruments, note reading, composers, theory, movement, and games. Students will gain a broad music education that is a great foundation for life or further music study.

Curriculum: Classes are based on the *First Steps in Music* curriculum by John M. Feierabend and also include activities based on the theories and methods of Edwin Gordon, Zoltan Kodaly, and Carl Orff. Each of these theorists is considered an expert in music education. Using ideas from each of them results in a truly top notch curriculum. This integrative approach also allows the teacher to choose from a larger variety of activities to best meet the needs and interests of the individual children in the class.
